Monique Leslie Akassi,2018-11-02 As the rich words from the African proverbs resonate into the twenty first century regarding the importance of identity and telling the stories of people of African descent through the eyes of the people the grand rhetorician and griot of the twentieth century Dr William Edward Burghardt Du Bois s infamous problem remains so today the problem of the colour line After the election of Barack Hussein Obama the first African American president of the United States after the Civil Rights Movement after Brown versus the Board of Education after the students right to their own language after Plessy versus Ferguson and the murders of innocent young African American males including Emmett Till Timothy Thomas Trayvon Martin John Crawford III Tamir Rice Jordan Davis Eric Garner and Mike Brown people of African descent are still battling with being labelled a problem in one s own country while the USA continues to strive for a post racial era W E B Du Bois s rhetoric and motives in general are more relevant today than ever in reassessing what he so eloquently describes and unveils through the phrase double consciousness in *Souls of Black Folk* 1903 through which he reveals the feeling of a problem This ground breaking volume featuring contributions from W E B Du Bois s great grandson Arthur McFarlane II among others is organized into three parts Part I focuses on the foundation of Du Bois s Africana Rhetoric through the origins of Africana Studies Pan Africanism and Africana Critical Theory Part II focuses on Du Bois s rhetorical strategies and rhetorical analyses in his scholarship and life Part III focuses on gender and sexuality in Du Bois s selected works This work the first of its kind devoted exclusively to Du Bois s rhetoric and motives can serve as a blueprint for today as the struggle toward a post racial society continues **Encyclopedia of Black Studies** Molefi Kete Asante,Ama

Murray,2018-06-26 This book examines black intellectual thought during from 1890 1940 and its relationship to the development of the alternative black curriculum in social studies Inquiry into the alternative black curriculum is a multi disciplinary project it requires an intersectional approach that draws on social studies research educational history and black history Exploring the gendered construction of the alternative black curriculum Murray considers the impact of Carter G Woodson and W E B DuBois in creating the alternative black curriculum in social studies and its subsequent relationship to the work of black women in the field and how black women developed the alternative black curriculum in private and public settings *Du Bois and Education* Carl A. Grant,2017-08-07 One of the most prominent African American intellectuals of the twentieth century W E B Du Bois continues to influence the understanding of race relations in the United States In this deeply personal introduction to the man and his ideas esteemed scholar Carl A Grant reflects on how Du Bois s work has illuminated his own life practices as a Black student teacher assistant principal and professor Sharing the story of a brilliant man s life contribution to teaching about race and the ideologies and methodologies of racism in education and social and political thought Grant begins his narrative with a broad overview of Du Bois s life and scholarship before turning more specifically to Du Bois s theory of an educational system The book concludes with an examination of Du Bois s curriculum model predicated upon the work of the NAACP the Harlem Renaissance and Du Bois s own writings as well as a discussion of the lasting legacy of Du Bois s educational and social theory in the present day Ideal for graduate level courses in curriculum theory educational foundations and education history *Du Bois and Education* provides an in depth examination of Du Bois s scholarship social criticism and political thought as they relate to his educational theory **Africana Critical Theory** Reiland Rabaka,2009-01-16 Building on and going far beyond W E B Du Bois and the Problems of the Twenty First Century and Du Bois s Dialectics Reiland Rabaka s *Africana Critical Theory* innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory This book represents a climatic critical theoretical clincher that cogently demonstrates how Du Bois s rarely discussed dialectical thought interdisciplinarity intellectual history making radical political activism and world historical multiple liberation movement leadership helped to inaugurate a distinct Africana tradition of critical theory With chapters on W E B Du Bois C L R James Negritude Aime Cesaire and Leopold Senghor Frantz Fanon and Amilcar Cabral *Africana Critical Theory* endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics These six seminal figures collective thought and texts clearly cuts across several

disciplines and therefore closes the chasm between Africana Studies and critical theory constantly demanding that intellectuals not simply think deep thoughts develop new theories and theoretically support radical politics but be and constantly become political activists social organizers and cultural workers that is folk the Italian critical theorist Antonio Gramsci referred to as organic intellectuals In this sense then the series of studies gathered in Africana Critical Theory contribute not only to African Studies African American Studies Caribbean Studies Cultural Studies Gender Studies and Postcolonial Studies but also to contemporary critical theoretical discourse across an amazingly wide range of traditional disciplines and radical political activism outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy

Du Bois is widely considered one of the most accomplished and controversial African American intellectuals in U.S. history A pioneering historian sociologist political economist and civil rights activist his masterpiece *The Souls of Black Folk* remains one of the most widely read books in the history of American literature In this new book Reiland Rabaka critically explores Du Bois's multidimensional legacy lucidly introducing his main contributions in areas ranging from American sociology and critical race studies to black feminism and black Marxism Rabaka argues that Du Bois's corpus particularly when attention is given to his contributions to the critique of racism sexism capitalism and colonialism can be persuasively interpreted as both an undeniable and unprecedented contribution to the origins and evolution of one of our most important contemporary critical concepts intersectionality Du Bois A Critical Introduction is an indispensable resource for scholars and students of history sociology politics and economics It will also be very valuable for those working in interdisciplinary fields ranging from

African American studies critical race studies and critical white studies to black feminism black Marxism and black internationalism *Contesting Post-Racialism* R. Drew Smith, William Ackah, Anthony G. Reddie, Rothney S. Tshaka, 2015-03-24 Contributions by William Ackah Allan Boesak Ebony Joy Fitchue Leah Gaskin Fitchue Walter Earl Fluker Forrest E Harris Sr Nico Koopman AnneMarie Mingo Reggie Nel Chabo Freddy Pilusa Anthony G Reddie Boitumelo Senokoane Rothney S Tshaka Luci Vaden Vuyani Vellem and Cobus van Wyngaard After the 2008 election and 2012 reelection of Barack Obama as US president and the 1994 election of Nelson Mandela as the first of several blacks to serve as South Africa's president many within the two countries have declared race to be irrelevant For contributors to this volume the presumed demise of race may be premature Given continued racial disparities in income education and employment as well as in perceptions of problems and promise within the two countries much healing remains unfinished Nevertheless despite persistently pronounced disparities between black and white realities it has become more difficult to articulate racial issues Some deem race an increasingly unnecessary identity in these more self consciously post racial times The volume engages post racial ideas in both their limitations and promise Contributors look specifically at the extent to which a church's contemporary response to race consciousness and post racial consciousness enables it to give an accurate public account of race

Race, Gender, and Comparative Black Modernism Jennifer M. Wilks, 2008-12 Race Gender and Comparative Black Modernism revives and critiques four African American and Francophone Caribbean women writers sometimes overlooked in discussions of early twentieth century literature Guadeloupean Suzanne Lacascade dates unknown African American Marita Bonner 1899 1971 Martinican Suzanne C saire 1913 1966 and African American Dorothy West 1907 1998 Reexamining their most significant work Jennifer M Wilks demonstrates how their writing challenges prevailing racial archetypes such as the New Negro and the Negritude hero of the period from the 1920s to the 1940s and explores how these writers tapped into modernist currents from expressionism to surrealism to produce progressive treatments of race gender and nation that differed from those of currently canonized black writers of the era the great majority of whom are men Wilks begins with Lacascade whom she deems best known for being unknown reading Lacascade's novel *Claire Solange me africaine* 1924 as a protofeminist proto Negritude articulation of Caribbean identity She then examines the fissures left unexplored in New Negro visions of African American community by showing the ways in which Bonner's essays plays and short stories highlight issues of economic class C saire applied the ideas and techniques of surrealism to the French language and Wilks reveals how her writings in the journal *Tropiques* 1941 45 directly and insightfully engage the intellectual influences that informed the work of canonical Negritude Wilks close reading of West's *The Living Is Easy* 1948 provides a retrospective critique of the forces that continued to circumscribe women's lives in the midst of the social and cultural awakening presumably embodied in the New Negro To show how the black literary tradition has continued to confront the conflation of gender roles with social and literary conventions Wilks examines these writers alongside the late twentieth

century writings of Maryse Condé and Toni Morrison Unlike many literary analysts Wilks does not bring together the four writers based on geography Lacascade and C saire came from different Caribbean islands and though Bonner and West were from the United States they never crossed paths In considering this eclectic group of women writers together Wilks reveals the analytical possibilities opened up by comparing works influenced by multiple intellectual traditions

An Appeal to the World Alex Haskins, 2024-11-25 An Appeal to the World Creolizing Domination in the Political Thought of Montesquieu Fukuzawa and Du Bois reconstructs how three distinguished political philosophers challenged transnational domination namely forms of arbitrary political and economic control across national borders through distinct but comparable philosophical frameworks geared toward a range of global contexts For Montesquieu despotic formulations remain the most alarming kinds of domination but can effectively be resisted through an emphasis on contextualized forms of moderation Fukuzawa's key concern with domination centers on dependent relations but can be resisted through an emphasis on contextualized forms of independence Du Bois for his part remains primarily concerned with domination as it manifests in discriminatory ontologies and he challenges these through an emphasis on contextualized solidarity and self determination An Appeal to the World creolizes these authors reflections through three cases on Egypt China and England that feature across each author's writing highlighting both shortcomings of each thinker's conclusions and how collectively they offer a more circumspect approach to resisting transnational domination In so doing An Appeal to the World challenges and seeks to conceptually and methodologically move beyond transnational good governance and developed developing frameworks that continue to bedevil international organizations in the present
