**Amy R. Hofer, Silvia Lin Hanick, Lori
Townsend**

Transforming Information Literacy Instruction Using Learner Centered Teaching:

Transforming Information Literacy Instruction Using Learner-centered Teaching Joan R. Kaplowitz, 2012 Do you feel like it's long past time to totally transform information literacy instruction? If so, this indispensable new book by Joan Kaplowitz has everything you need to help you incorporate learner-centred teaching (LCT) into information literacy instruction (ILI) combining important grounding in the discipline with usable instructions and tips. Collaboration, participation, and responsibility are emphasized. You get first-hand information on the transition to learner-centred teaching through Joan Kaplowitz's own experience as well as real-life examples from instructors in the field who support the learner-centred teaching model. Part One explains how learner-centred teaching works and why it's so effective, offers tips and tricks to listen to, engage with, and inspire your learners, and provides essential background information and resources to paint a well-rounded picture of the learner-centred teaching model. Part Two helps you plan for LCT by covering different methods like modelling, questioning, and collaborative group work. You'll also gain valuable advice on measuring outcomes, assessment, and selecting the best instructional activities based on those outcomes. Part Three brings everything together by applying LCT to practice with tips on strengthening the face-to-face learning experience, creating the right environment, and discussing important drawbacks to consider in certain classrooms. An entire chapter is devoted to creating an online learner-centred experience that includes pros and cons, special challenges, designing the online environment to get the most out of LCT, and the key elements for online instruction. Perspectives from school, public, college, university, and special libraries provide best practices from all areas of librarianship. Readership: Librarians, information professionals, and students on librarianship and information science courses.

Designing Information Literacy Instruction Joan R. Kaplowitz, 2014-05-01 Designing Information Literacy Instruction: The Teaching Tripod Approach provides a working knowledge of how instructional design (ID) applies to information literacy instruction (ILI). Its how-to-do-it approach is directed at instruction librarians in all library settings and deals with both face-to-face and online ID issues. No matter where an instruction librarian works, whom they are teaching, or what delivery mode they will be using, the ID process remains the same: Start with the user and the user's needs. Identify the instructional problem(s). Develop outcomes that address these problem(s). Use outcomes to drive both the learning activities included and the assessments used to measure the attainment of the success of the instructional endeavor. This book will help instruction librarians create instruction for all types of environments and in all modes of delivery. It includes exercises and worksheets to help the reader work through the instructional design process. Based on Kaplowitz's innovative Teaching Tripod model, it will help instructional librarians clearly define the crucial links between outcomes, activities, and assessment.

Transforming Information Literacy Instruction Amy R. Hofer, Silvia Lin Hanick, Lori Townsend, 2018-11-16 Provides information literacy practitioners with a thorough exploration of how threshold concepts can be applied to information literacy, identifying important elements and connections between each concept and relating theory to practical

methods that can transform how librarians teach A model that emerged from the Enhancing Teaching Learning Environments project in Great Britain threshold concepts are those transformative core ideas and processes in a given discipline that define the ways of thinking and practicing shared by experts Once a learner grasps a threshold concept new pathways to understanding and learning are opened up The authors of this book provide readers with both a substantial introduction to and a working knowledge of this emerging theory and then describe how it can be adapted for local information literacy instruction contexts Five threshold concepts are presented and covered in depth within the context of how they relate and connect to each other The chapters offer an in depth explanation of the threshold concepts model and identify how it relates to various disciplines and our own discipline information science and to the understandings we want our students to acquire This text will benefit readers in these primary audiences academic librarians involved with information literacy efforts at their institutions faculty teaching in higher education upper level college administrators involved in academic accreditation and high school librarians working with college bound students

The New Information Literacy Instruction Patrick Ragains,M. Sandra Wood,2015-11-05 The new ACRL information literacy concepts brings renewed interest in information literacy instruction and skills for librarians The New Information Literacy Instruction Best Practices offers guidance in planning for and implementing information literacy instruction programs in a wide range of instructional situations including Course related instructionFreshman composition coursesProfessional medical educationNew course development and deliveryOne shot sessionsFormal credit coursesDistance educationVisual literacyand moreAs librarians take a new look at information literacy instruction this essential book will help guide you in creating and maintaining a quality instruction program

The Information Literacy Framework Heidi Julien,Melissa Gross,Don Latham,2020-02-07 This book helps demystify how to incorporate ACRL s Framework for Information Literacy for Higher Education into information literacy instruction in higher education as well as how to teach the new Framework to pre service librarians as part of their professional preparation This authoritative volume copublished by the Association for Library and Information Science Education ALISE demonstrates professional practice by bringing together current case studies from librarians in higher education who are implementing the Framework for Information Literacy for Higher Education as well as cases from educators in library and information science who are working to prepare their pre service students to practice in the new instructional environment Instructional librarians administrators and educators will benefit from the experiences the people on the ground who are actively working to make the transition to the Framework in their professional practice

Designing Information Literacy Instruction Joan R. Kaplowitz,2014 Designing Information Literacy Instruction The Teaching Tripod Approach provides a working knowledge of how instructional design ID applies to information literacy instruction ILI Its how to do it approach is directed at instruction librarians in all library settings and deals with both face to face and online ID issues No matter where an instruction librarian works whom they are teaching or what delivery mode they

will be using the ID process remains the same Start with the user and the user's needs Identify the instructional problem's Develop outcomes that address these problem's Use outcomes to drive both the learning activities included and the assessments used to measure the attainment of the success of the instructional endeavor This book will help instructional librarians create instruction for all types of environments and in all modes of delivery It includes exercises and worksheets to help the reader work through the instructional design process Based on Kaplowitz's innovative Teaching Tripod model it will help instructional librarians clearly define the crucial links between outcomes activities and assessment *Information Literacy: Lifelong Learning and Digital Citizenship in the 21st Century* Serap Kurbanoglu, Sonja Spiranec, Esther Grassian, Diane Mizrachi, Ralph Catts, 2014-12-13 This book constitutes the refereed proceedings of the European Conference on Information Literacy ECIL 2014 held in Dubrovnik Croatia in October 2014 The 93 revised full papers presented together with two keynotes and one invited paper were carefully reviewed and selected from 283 submissions The papers are organized in topical sections on theoretical framework related concepts research rights and ethics children higher education education and instruction assessment and evaluation libraries different aspects *The Fortuitous Teacher* Sarah Cisse, 2016-03-03 The Fortuitous Teacher A Guide to Successful One Shot Library Instruction discusses how librarians have become accidental teachers in the academic university setting It covers how if at all librarians are prepared by MILS programs to teach compares typical characteristics of teachers versus librarians and presents tactics on how to learn effective teaching skills on the job In addition readers will learn about the history of library instruction the different types of library instruction and the dynamics of one shot library instruction classroom culture faculty buy in and collaboration Examines how MILS programs prepare librarians to teach Compares the typical characteristics of effective teachers and librarians Offers advice for new academic librarians who take on the role of classroom teacher Explores future trends in library instruction and how to apply this to one shot instruction sessions **Online by Design** Yvonne Mery, Jill Newby, 2014-04-23 As more and more academic libraries consider offering online credit courses or converting face to face courses to online instructional librarians need to quickly get up to speed about online course design and delivery Even the most seasoned instruction librarian may be intimidated by the thought of converting their classroom course into an online course Based on both sound research in the area on of online pedagogy and extensive teaching experience this book includes ideas for Creating innovative and interactive information literacy tutorials that engage students Addressing common pitfalls of online instruction including communicating with students designing a course that is easy to navigate and getting the most out of the course management system Developing assignments and assessments that work in an online environment Incorporating the ACRL Information Literacy Competency Standards for Higher Education into the materials development process A must for both seasoned instruction librarians and those just starting this book will provide librarians with the practical information needed to move their instruction online and teach a successful course *Library and*

Information Science Michael F. Bemis, 2014-03-03 This unique annotated bibliography is a complete up to date guide to sources of information on library science covering recent books monographs periodicals and websites and selected works of historical importance In addition to compiling an invaluable list of sources Bemis digs deeper examining the strengths and weaknesses of key works A boon to researchers and practitioners alike this bibliography Includes coverage of subjects as diverse and vital as the history of librarianship its development as a profession the ethics of information science cataloging reference work and library architecture Encompasses encyclopedias dictionaries directories photographic surveys statistical publications and numerous electronic sources all categorized by subject Offers appendixes detailing leading professional organizations and publishers of library and information science literature This comprehensive bibliography of English language resources on librarianship the only one of its kind will prove invaluable to scholars students and anyone working in the field

Teaching Reference Today Lisa A. Ellis, 2016-06-09 Reference and Information Services if it may still be referred to by this term is an evolving outreach service in libraries This is not only due to Google and the Internet but also other technological advances afford users online access to a plethora of content free and proprietary This evolution has also caused a shift in the theories and practices especially core functions and values of reference and information services as library schools seek greater alignment with practitioners and libraries on the forefront of these changes As academics and practitioners work together to educate library students on the kinds of changes happening in reference and information services they are rethinking their curriculum and assignments to incorporate real world challenges adaptive to user needs Likewise libraries may work through their regional library consortia to plan professional development workshops or training sessions to teach new skills and methods of approach required for such changing services Here s a tool for library school instructors library students professional development instructors and current librarians poised to change which specifically addresses the pedagogy of reference and information services in flux It will help answer questions such as How may we better educate a new and current generation of reference and information service professionals given the challenges they will likely encounter What kinds of assignments could be devised to better promote active learning in a transformative field like reference and information services What new approaches or theories could be applied to assist library professionals in meeting the informational needs of users

The Evolution of Inquiry Daniel Callison, 2015-05-26 Defining the progression toward inquiry learning this book provides an extensive overview of the past five decades and the evolution of inquiry in science history language arts and information literacy studies Information inquiry is a basic skill for those who examine information as a science and its principles can be applied across the K 12 curriculum Built around reflective reviews of more than two dozen articles from School Library Media Activities Monthly this helpful book shows the evolution adoption and application of the inquiry learning process to the school library teaching learning environment Four levels of inquiry controlled guided open and free are explored in association with the emerging national Common Core curriculum and the

Standards for the 21st Century Learner from the American Association of School Librarians With the growing interest in the concept of inquiry and inquiry learning you may find yourself needing to distinguish between the existing models and their applications To help you do that the book provides you with rich historical context that clarifies the models and it also projects future applications of inquiry and learner centered teaching through school information literacy programs These new applications such as graphic inquiry argumentation for inquiry and the student as information scientist offer tangible examples you can use to enrich the expanding information literacy curriculum

Information and Data Literacy Joyce Hagen-McIntosh, 2016-01-05 In an age where data flows non stop across all geographic borders and accessible to many the job of providing information literacy has become much more exciting more complicated and more necessary Information and Data Literacy The Role of the Library takes a comprehensive look at the changing role of today s librarians and libraries in an increasingly tech driven world You ll find the authors of this book represent public and academic libraries countries around the globe and differences of opinion as to the definition purpose charge and success of providing information and data literacy The book is divided into several parts covering Understanding the role of information and data literacy in the library The new and changing roles for librarians Methods for promoting information and data literacy New challenges for the library in the new information environment The need for information and data literacy for marginalized populations including the homeless those in rural settings sexual minorities and others Addressing the trends and challenges at different types of libraries the volume provides an overview of information and data literacy in the library and offers an array of perspectives Topics cover The role of the public library as a community hub Student information literacy in the mobile environment Information literacy in schools How the information landscape has changed library reference services Library instruction and exercises to promote information literacy for both traditional students and those in continuing education Edited by a consultant with the Freedom to Read Foundation who is a former outreach and assistive technology librarian the book offers a wealth of information for beginning librarians as well as for seasoned library professionals looking for new methods to evaluate and promote data and information literacy

Innovations and Challenges in Early Childhood Education for Sustainable Development Abdülkadir Kabadayı, 2021-09-15 Innovations and Challenges in Early Childhood Education for Sustainable Development

Innovative Teaching Strategies in Nursing and Related Health Professions Martha J. Bradshaw, Arlene Lowenstein, 2013-09-13 Innovative Teaching Strategies in Nursing and Related Health Professions Sixth Edition is focused on providing in depth coverage around teaching learning and evaluation strategies for Nurse Educators and health professionals The text addresses different styles of learning diversity in the classroom and critical thinking Creative and innovative strategies and techniques are woven throughout the text with an emphasis on the importance of simulation in the classroom The authors bring key concepts to life by including specific examples and suggestions for how to implement teaching strategies how to identify types of learners as well as how to predict potential issues or challenges with

each strategy The Sixth Edition addresses specific teaching learning strategies for traditional classroom settings the clinical arena and through the use of technology for both web based and virtual simulation The new edition focuses on the strategy behind the use of technology to help the students understand how it helps to promote learning and engagement Innovative Teaching Strategies in Nursing and Related Health Professions Sixth Edition is appropriate for all graduate level courses for health professions educators A unique quality of this text is that it can be used in any health professions program other than nursing No other Health professions education text acknowledges fields other than nursing This text is widely used by students who practice and teach in a variety of health professions and is viewed as an integral resource for their professional development Key Features Provides specific examples and suggestions for how or when to use particular teaching strategies according to type of learner in the classroom Addresses trends in health care and education of health professionals Reference is made to the 2003 report from the Institute of Medicine on health professions education Examples throughout point to the changing nature of patient care and show how to prepare students to practice in diverse settings Discusses the use of Library Resources Includes coverage of the education of health professionals New to this Edition Clinical Reasoning Research and teaching the strategies of searching written by a Research Librarian Innovation of new teaching methods and technologies Emphasis on simulation Extensive revision of Concept Mapping chapter along with information on how to grade a student s map Teaching preparation and the use of resources Synchronous Learning

Information Services Today Sandra Hirsh, 2018-03-02 This second edition of Information Services Today An Introduction demonstrates the ever changing landscape of information services today and the need to re evaluate curriculum competency training and one s personal learning network in order to stay abreast of current trends and issues and more significantly remain competent to address the changing user needs of the information community Specifically the book provides a thorough introduction history and overall state of the field gives a diverse and global perspective of what it means to be a library and information professional today addresses why information organizations and information and technological literacy are more important today than ever before discusses how technology has influenced the ways that information professionals provide information resources and services in today s digital environment highlights current issues and trends and provides expert insight into emerging challenges innovations and opportunities for the future and identifies career management strategies and leadership opportunities in the information profession The new edition features chapter updates to address changes in information services introducing new topics such as strategic planning change management design thinking advocacy and data management and analysis and includes new contributing authors The book begins with an overview of libraries and their transformation as information and technological hubs within their local and digital communities It covers the various specializations within the field emphasizing the exciting yet complex roles and opportunities for information professionals in a variety of information environments With that foundation in place it presents the fundamentals of information services
