Transition To Neo Confucianism Transition To Neo Confucianism:

Transition to Neo-Confucianism Anne D. Birdwhistell, 1989-08-01 The Sung Neo Confucian synthesis is one of the two great formative periods in the history of Confucianism Shao Yung 1011-77 was a key contributor to this synthesis and this study attempts to make understandable the complex and highly theoretical thought of a philosopher who has been for the most part misunderstood for a thousand years It is the first full length study in any language of Shao Yung's philosophy Using an explicit metaphilosophical approach the author examines the implicit and assumed aspects of Shao Yung's thought and shows how it makes sense to view his philosophy as an explanatory theory Shao Yung explained all kinds of change and activity in the universe with six fundamental concepts that he applied to three realms of reality subsensorial matter the phenomenal world of human experience and the theoretical realm of symbols The author also analyzes the place of the sage in Shao's philosophy Not only would the sage restore political and moral unity in society but through his special kind of knowing he also would restore cosmological unity Shao's recognition that the perceiver had a critical role in making and shaping reality led to his ideal of the sage as the perfect knower Utilizing Shao's own device of a moving observational viewpoint the study concludes with an examination of the divergent interpretations of Shao's philosophy from the eleventh to the twentieth century Because Shao took very seriously numerological aspects of Chinese thought that are often greatly misunderstood in the West e.g. the I Ching the study is also a very good introduction to the epistemological implications of an important strand of all traditional Chinese philosophical thought

'This Culture of Ours' Peter K. Bol, 1994-08-01 This book traces the shared culture of the Chinese elite from the seventh to the twelfth centuries The early Tang definition of This Culture of Ours combined literary and scholarly traditions from the previous five centuries The late Sung Neo Confucian movement challenged that definition The author argues that the Tang-Sung transition is best understood as a transition from a literary view of culture in which literary accomplishment and mastery of traditional forms were regarded as essential to the ethical orientation of Neo Confucianism in which the cultivation of one's innate moral ability was regarded as the goal of learning The author shows that this transformation paralleled the collapse of the Tang order and the restoration of a centralized empire under the Sung underscoring the connection between elite formation and political institutions

Neo-Confucianism Stephen C. Angle, Justin Tiwald, 2017-03-27 Neo Confucianism is a philosophically sophisticated tradition weaving classical Confucianism together with themes from Buddhism and Daoism It began in China around the eleventh century CE played a leading role in East Asian cultures over the last millennium and has had a profound influence on modern Chinese society Based on the latest scholarship but presented in accessible language *Neo Confucianism A Philosophical Introduction* is organized around themes that are central in Neo Confucian philosophy including the structure of the cosmos human nature ways of knowing personal cultivation and approaches to governance The authors thus accomplish two things at once they present the Neo Confucians in their own distinctive terms and they enable contemporary

readers to grasp what is at stake in the great Neo Confucian debates This novel structure gives both students and scholars in philosophy religion history and cultural studies a new window into one of the world s most important philosophical traditions

The Recluse of Loyang Don J. Wyatt,1996-01-01 Few thinkers have stood as squarely at both the center and the periphery of an intellectual movement as has Shao Yung 1011 1077 Ethical model and eccentric socialite and eremite Shao Yung is perhaps not only the greatest enigma of early Neo Confucianism but also one of its undisputed giants In this impressive life and thought study Don J Wyatt painstakingly sifts through all available evidence relating to Shao Yung and his scholarship to provide a portrait that fully exposes the moral center of the man and his work Drawing on the abundant store of letters and accounts by Shao s contemporaries and his own much neglected poetry Wyatt has assembled a study that intimately relates Shao s life to his thought He challenges the assumptions of previous Western scholarship by persuasively arguing against the acceptance of works traditionally ascribed to Shao specifically the Kuan wu wai p ien Outer Chapters on Observing Things the Yu ch iao wen ta Fisherman and Woodcutter Dialogue and the cryptic quasi autobiographical essay Wu ming kung chuan Biography of the Nameless Lord Shao is presented as an independent thinker whose philosophical lexicon functioned according to a profound interdependence that was unique among the systems of his peers His metaphysical concepts which appear impervious to and beyond the scope of human influence namely his ching shih world ordering kuan wu observing things and I Ching derived hsien t ien before Heaven methodologies are essentially the products of a morally reflective life Wyatt s discoveries therefore refute the common assertion of Shao Yung s moral indifference Moreover by meticulously integrating the progress of this Neo Confucian s thought into the course of his life the author has produced one of the most textured and accessible works on a philosopher of the Sung era BOOK JACKET Title Summary field provided by Blackwell

Song-Yuan-Ming Transition in Chinese History Paul Jakov Smith, Richard von Glahn, 2020-03-23 This volume seeks to study the connections between two well studied epochs in Chinese history the mid imperial era of the Tang and Song ca 800 1270 and the late imperial era of the late Ming and Qing 1550 1900 Both eras are seen as periods of explosive change particularly in economic activity characterized by the emergence of new forms of social organization and a dramatic expansion in knowledge and culture The task of establishing links between these two periods has been impeded by a lack of knowledge of the intervening Mongol Yuan dynasty 1271 1368 This historiographical black hole has artificially interrupted the narrative of Chinese history and bifurcated it into two distinct epochs This book aims to restore continuity to that historical narrative by filling the gap between mid imperial and late imperial China The contributors argue that the Song Yuan Ming transition early twelfth through the late fifteenth century constitutes a distinct historical period of transition and not one of interruption and devolution They trace this transition by investigating such subjects as contemporary impressions of the period the role of the Mongols in intellectual life the economy of Jiangnan urban growth neo Confucianism and local society commercial publishing comic drama and medical learning

The Natural Philosophy of Chu Hsi (1130-1200) Yung Sik Kim, 2000 Chu Hsi 1130 1200 exerted a lasting influence on the thought and life of the Chinese in subsequent centuries The core of his synthesis was moral and social philosophy but it also included knowledge about the natural world His doctrine of ke wu invest of things made him mindful of the specialized knowledge in such scientific traditions as astronomy harmonics medicine etc This study of Chu Hsi's thought gives a systematic account of the basic concepts of his natural philosophy Also discusses Chu Hsi's actual knowledge about the natural world And examines the relation between Chu Hsi and Chinese scientific traditions and compares his natural knowledge with that of the Western scientific tradition

The Rise and Fall of Imperial China Yuhua Wang, 2022-10-11 How social networks shaped the imperial Chinese state China was the world's leading superpower for almost two millennia falling behind only in the last two centuries and now rising to dominance again What factors led to imperial China's decline The Rise and Fall of Imperial China offers a systematic look at the Chinese state from the seventh century through to the twentieth Focusing on how short-lived emperors often ruled a strong state while long-lasting emperors governed a weak one Yuhua Wang shows why lessons from China's history can help us better understand state building Wang argues that Chinese rulers faced a fundamental trade-off that he calls the sovereign's dilemma a coherent elite that could collectively strengthen the state could also overthrow the ruler This dilemma emerged because strengthening state capacity and keeping rulers in power for longer required different social networks in which central elites were embedded Wang examines how these social networks shaped the Chinese state and vice versa and he looks at how the ruler's pursuit of power by fragmenting the elites became the final culprit for China's fall Drawing on more than a thousand years of Chinese history The Rise and Fall of Imperial China highlights the role of elite social relations in influencing the trajectories of state development
