Transitioning To California's New Common Core Math Standards Study Guide:

Reading Discussing and Learning California's Common Core Mathematics Standards David Marcelletti, William Saunders, Kevin McCarthy, 2013-06-25 This Study Guide represents the major product of The Talking Teaching Network's research and development related to the transition to the Common Core Standards. The contents of this Study Guide were developed through collaborations with teachers, instructional coaches, and school and district administrators at participating districts in California. Collaborations focused on developing materials and tasks to support educators' individual and collaborative study of California's new Common Core Mathematics standards. This Study Guide includes all tasks developed, directions for using, and adapted versions of the standards themselves. Through these materials and reports, we seek to help educators advance their knowledge and expertise and thereby help their students successfully meet these new and more rigorous but very promising Mathematics standards.

A Look at Kindergarten Through Grade Six in California Public Schools Faye Ong, John McLean, Cynthia Gunderson, 2011 The publication is based on a look at kindergarten through grade six in California public schools and the common core state standards. This online publication contains all content areas and is attached as a CD-ROM for reference.

Perspectives on Transitions in Schooling and Instructional Practice Susan E. Elliott-Johns, Daniel H. Jarvis, 2013-12-06 Perspectives on Transitions in Schooling and Instructional Practice examines student transitions between major levels of schooling, teacher transitions in instructional practice, and the intersection of these two significant themes in education research. Twenty-six leading international experts offer meaningful insights on current pedagogical practices, obstacles to effective transitions, and proven strategies for stakeholders involved in supporting students in transition. The book is divided into four sections representing the four main transitions in formal schooling: Early Years Home Pre-school and Kindergarten to Early Elementary Grades 1-3, Early Elementary to Late Elementary Grades 4-8, Late Elementary to Secondary Grades 9-12, and Secondary to Post-Secondary College and University. A coda draws together overarching themes from throughout the text to provide recommendations and a visual model that captures their interactions. Combining theoretical approaches with practical examples of school-based initiatives, this book will appeal to those involved in supporting either the student experience, both academically and emotionally, or teacher professional learning and growth.

Literacy Strategies for English Learners in Core Content Secondary Classrooms Margarita Espino Calderon, Maria N. Trejo, 2015-10-08 Motivate English learners to boost proficiency with confidence. This book focuses on instructional strategies that integrate language literacy and content across all subject areas in secondary education. Presenting instructional methods within the framework of the Common Core and other state standards, the authors demonstrate how rigorous instruction can help amplify students' self-worth and promote more significant learning to ensure all students thrive.
