Transnational Litigation in United States Courts Harold Hongju Koh, 2008 Softbound New softbound print book

Transnational Legal Orders Terence C. Halliday, Gregory Shaffer, 2015-01-19 This book offers a path breaking empirically grounded theory that reframes the study of law and society It shifts research from a predominantly national context to one that places transnational national and local lawmaking and practice within a single coherent analytic frame By presenting and elaborating a new concept transnational legal orders Halliday and Shaffer present an original approach to legal orders that affect fundamental economic and social behaviors The contributors generate arrays of hypotheses about how transnational legal orders rise and fall where they compete and cooperate and how they settle and unsettle This original theory is applied and developed by distinguished scholars from North America Europe and Asia in business law taxation corporate bankruptcy secured transactions transport of goods by sea regulatory law monetary and trade finance food safety climate change and human rights law civil and political rights rule of law right to health access to medicines human trafficking criminal accountability of political leaders **Touro journal of transnational law**, 1988 *Reasoning Rights* Liora Lazarus, Christopher McCrudden, Nigel Bowles, 2014-12-01 This book is about judicial reasoning in human rights cases The aim is to explore the question how is it that notionally universal norms are reasoned by courts in such significantly different ways What is the shape of this reasoning which techniques are common across the transnational jurisprudence and which are particular The book comprising contributions by a team of world leading human rights scholars moves beyond simply addressing the institutional questions concerning courts and human rights which often dominate discussions of this kind seeking instead a deeper examination of the similarities and divergence of reasonings by different courts when addressing comparable human rights questions These differences while partly influenced by institutional concerns cannot be attributed to them alone This book explores the diverse and rich underlying spectrum of human rights reasoning as a distinctive and particular form of legal reasoning evident in the case studies across the selected jurisdictions *UC Irvine Law Review*, 2013 **Transnational Corporations and International Law** Alice De Jonge, 2011-01-01 This well documented work will appeal to corporate leaders interested in understanding the related practicalities of international corporate liability as well as post graduate students in international business and international policy studies Policymakers academics and researchers interested in a unique perspective on the future of the global corporation as an internationally responsible global citizen will find much to interest them in this book *Intolerant Justice* Asif Efrat, 2023 The idea of facing a court in a foreign country would typically cause serious doubt about whether the foreign legal process and its outcome would be fair *Intolerant Justice* examines the political implications of those doubts regarding foreign justice and how they might hinder international cooperation among national legal systems Should we allow our troops to stand trial in foreign courts Should we extradite offenders to countries with a poor human rights record Should we enforce rulings issued by

foreign judges This book examines the domestic political controversies over these sensitive legal questions **Denver**
Journal of International Law and Policy ,1982 Environmental NGOs and Access to Justice before the CJEU Mario
Pagano,2025-11-13 This book tells a fascinating legal mobilisation story Analysing EU environmental litigation over the last
30 years it illustrates how the European environmental movement has patiently attempted and succeeded in expanding
access to justice opportunities before the EU Courts This is despite the longstanding reluctance of the EU Court of Justice to
soften its standing requirements for private applicants bringing cases directly to Luxembourg This research draws on both
doctrinal analysis and qualitative methods of socio legal inquiry At its heart are interviews with key stakeholders
environmental lawyers plaintiffs and activists which give an invaluable and innovative perspective on strategic litigation
before the EU judiciary With the growing emergency posed by the climate crisis and resultant increased litigation this book
makes a significant scholarly contribution to the study of environmental movements to our conceptualisation of legal
mobilisation and to our understanding of the impact of litigation in European environmental law **Multinational**

including controls over and the liberalization of entry and establishment tax company and competition law and the impact of
intellectual property rights on technology diffusion and transfer A specialized chapter on the regulation of multinational
banks in the wake of the global financial crisis is new to this edition Part III introduces the social dimension of MNE

Simonelli,2021-12-13 This book systematically explores the emerging legal discipline of Earth System Law ESL challenging the closed system of law and marking a new era in law and society scholarship Law has historically provided stability certainty and predictability in the ordering of social relations predominantly between humans However in recent decades the Earth s relationship in law has changed with increasing recognition of the standing of Mother Earth inherent rights of the environment such as flora and fauna rivers and now recognition of the multiple relations of the Anthropocene This book questions the fundamental assumption that the law only applies to humans and that the earth as a system has intrinsic rights and responsibilities In the last ten years the planet has experienced its hottest period since human evolution and by the year 2100 unless substantive action is taken many species will be lost and planetary conditions will be intolerable for human civilisation as it currently exists Relationships between humans the biosphere and all planetary systems must change The authors address these challenging topics setting the groundwork of ESL to ensure sustainable development of the coupled socio ecological system that the Earth has become Earth System Law is an interdisciplinary and transdisciplinary research

International economic law Julian Mahari,1987 State-federal Judicial Observer ,1996 **Constitutional Courts, Gay Rights and Sexual Orientation Equality** Angioletta Sperti,2017-05-04 In the last fifteen years constitutional issues regarding the rights of gays lesbians and same sex couples have emerged on a global scale The pace of recognition of their fundamental rights both at judicial and legislative level has dramatically increased across different jurisdictions reflecting a growing consensus toward sexual orientation equality This book considers a wide range of decisions by constitutional and

international courts from the decriminalization of sexual acts to the recognition of same sex marriage and parental rights for same sex couples. It discusses analogies and differences in judicial arguments and rationales in such cases focusing in particular on human dignity, privacy, liberty, equality and non discrimination. It argues that courts operate as major exporters of models and principles and that judicial cross fertilization also helps courts in increasing the acceptability of gays and lesbians rights in public opinions and politics. Courts discuss changes in the social perception of marriage and family at national and international levels and at the same time confirm and reinforce them forging the legal debate over sexual orientation equality. Furthermore by promoting the political reception of the achievements of foreign gay movements in their own jurisdictions courts play an essential role in breaking the political stalemate.
