The Trade Trap Mathias Döpfner,2023-09-19 Freedom is on the decline around the world Autocrats in Europe Asia and the Mideast are undermining our open societies human rights and the rule of law The Russian invasion in Ukraine was a wake up call for the West but the biggest threat remains China For two generations Americans and Europeans have believed that change will come through trade but instead of dictatorships becoming more like Western democracies unfettered free trade has strengthened our enemies and undermined our countries We are caught in a trade trap faced with the decision to choose either opportunism and submission or opposition and emancipation In this book one of the world s most powerful business leaders traces the rise and costs of Western dependency on China and Russia and he suggests a radical new approach to free trade the establishment of a new values based alliance of democracies

The Ascent of Science Brian L. Silver,2000-04-06 From the revolutionary discoveries of Galileo and Newton to the mind bending theories of Einstein and Heisenberg from plate tectonics to particle physics from the origin of life to universal entropy and from biology to cosmology here is a sweeping readable and dynamic account of the whole of Western science In the approachable manner and method of Stephen Jay Gould and Carl Sagan the late Brian L Silver translates our most important and often most obscure scientific developments into a vernacular that is not only accessible and illuminating but also enjoyable Silver makes his comprehensive case with much clarity and insight his book aptly locates science as the apex of human reason and reason as our best path to the truth For all readers curious about or else perhaps intimidated by what Silver calls the scientific campaign up to now in his Preface The Ascent of Science will be fresh vivid and fascinating reading
