The Routledge International Encyclopedia of Education Gary McCulloch, David Crook, 2013-11-26 The Routledge International Encyclopedia of Education is a unique and major resource for the field of education. It is a comprehensive single volume work arranged alphabetically and comprising around 600 entries. The entries range from definitions of key educational concepts and terms to biographies of key educators and specially written substantial essays on major educational topics. The volume includes authoritative and critical commentary on historical and contemporary themes, examinations of continuities, changes and emerging issues, and discussions of the educational traditions and features of major countries and continents. The following special features are also included: Unrivalled coverage of education in a single volume; Entries by leading international educational researchers; Contributors drawn from all over the globe including Australia, Brazil, Canada, China, Finland, India, Israel, Japan, New Zealand, South Africa, the United Kingdom and the United States; A distinguished international advisory board; Fully cross referenced and indexed; Suggestions for further reading; Offering insight into the world of education in an interesting, informed and sometimes provocative way. The Routledge International Encyclopedia of Education is an invaluable work of reference for educators, students, researchers and policy makers in education and related fields internationally.

De Gruyter Handbook of Disability and Management Joy Beatty, Sophie Hennekam, Mukta Kulkarni, 2023-03-20 Globally, the prevalence of disability is growing, as is disability awareness. The disability rights movement argues that the right to employment is essential for full participation and human dignity. While there have been improvements related to broad diversity programs and policies, those for persons with disabilities, especially less visible or invisible disabilities, have received less attention. Contextual factors such as the legal environment and protections, cultural and social values, religious norms, and broader economic conditions shape the employment prospects for persons with disabilities. The De Gruyter Handbook of Disability and Management uses an interdisciplinary lens to study disability and management, integrating perspectives from disability studies, psychology, education, and legal domains. It aims to incorporate a contextually sensitive and global perspective to emphasize actionable areas of inclusion and provides a more international focus by including contributions from across the world, including countries and regions that have till date received less attention in the area of disability studies. Managers, human resource professionals, and policy makers can be more proactive to support persons with disabilities, and more insights, best practices, and tools are needed to facilitate this support. This handbook will guide and support efforts of organizational stakeholders and policy makers as they strive to be more inclusive.

Style Differences in Cognition, Learning, and Management Stephen Rayner, Eva Cools, 2011 This book aims to mark fifteen years of contributions to the field of style research in cognition and learning presented at the annual conference of the European Learning Styles Information Network. The style field is a multidisciplinary global community made up of researchers in several domains of knowledge including education, psychology, business, computer science, information systems, management, human resources, and other

related fields The book will be relevant for readers who are interested in differences in thinking and learning covering a wide range of style related themes with appeal to readers seeking an international and interdisciplinary perspective Interested practitioners will include professionals working in the areas of HR Management Organizational Learning Business Management and all phases of Education The application of style differences for example impacts widely upon work and human performance in areas of policy making team management and project development sports social agency and medicine New or alternative research paradigms facilitating revision and consensus in the field of style differences are presented The aim of integrating research and practice is developed to achieve consensual theory for style differences in human performance Style Differences in Performance is a timely and field defining volume that will change the way academics and practitioners across international and disciplinary boundaries think and talk about the field of learning style and its implications for human achievement

Handbook of Research on Shifting Paradigms of Disabilities in the Schooling System Maapola-Thobejane, Hlabathi Rebecca, Maguvhe, Mbulaheni Obert, 2023-10-16 Children living with disabilities face hardships of many kinds that make it impossible for them to access quality education in the same way as their peers in the schooling system All children are entitled to quality education and a supportive school environment that allows them to develop to their full potential irrespective of their disabilities However different factors make it difficult for many learners who live with disabilities to access participate and succeed in the schooling system The Handbook of Research on Shifting Paradigms of Disabilities in the Schooling System focuses on the global trends in education that require the total eradication of every form of impediment in the process of accessing quality education and lifelong learning for people living with disabilities Rooted in the philosophy of equal rights human dignity and social justice access to quality education for all has led to the current drive for inclusive education Covering topics such as inclusive schooling systems visual impairments and emotional disabilities this major reference work is an essential resource for students and faculty of higher education administrators of both K 12 and higher education government officials policymakers non profit organizations researchers and academicians

Understanding Special Educational Needs and Disability in the Early Years Janice Wearmouth, Abigail Gosling, Julie Beams, Stephanie Davydaitis, 2017-09-18 This key text provides essential tools for understanding legislation policy provision and practice for children in the early years particularly young children with special educational needs and disability SEND Based on extensive research and the four areas of need as defined in the Special Educational Needs and Disability Code of Practice 0 to 25 Years DfE 2015 the book charts the development of young children and their growing constructions of learning communication language motor movement and emotion Providing material that translates into practice in a straightforward and practical way this text is packed full of personal accounts and case studies enabling readers to appreciate what the experience of SEND in the early years means for families and professionals and also to learn more about how they might understand and respond appropriately to a child s needs Understanding Special

Educational Needs and Disability in the Early Years will be of interest to students studying Early Years courses families SENDCOs teachers and other staff supporting young children with a range of special educational needs and disabilities
