Visions of Jewish Education Seymour Fox, Israel Scheffler, Daniel Marom, 2003-07-07 This book looks at the philosophical consideration of Jewish existence in our time as reflected in Jewish education its alternative visions its purposes and instrumentalities the values it should serve and the personal and social character it ought to foster Prevalent conceptions and practices of Jewish education are neither sufficiently reflective nor thoroughgoing enough to meet the multiple challenges that the world now poses to Jewish existence and continuity New efforts are needed to develop an education of the future that will honor the riches of the Jewish past and grasp the opportunities of fruitful interactions with the general culture of the present To promote such efforts six leading scholars in this book formulate their variant visions of an ideal Jewish education for the contemporary world This book also translates these visions into educational practice and finally articulates a vision abstracted from a case study of a school s ongoing practice
