Time Magazine Protest:

Visual Protest, Viral Images, and Virtual Participation Nicole A. Schneider, 2025-06-30 This interdisciplinary study sees press photographs of the BLM Movement in the US as agents for Black liberation. Close reading both the images and theoretical considerations on Blackness photography and the often intangible articulations of racism in today's society, the book focuses on the work the photographs do for the movement as they politically garner attention and create discursive places historically unsettle seemingly fixed narratives about the African American past and virtually establish room for digital activist debate. Based on Azoulay's event of photography and Rancière's politics of aesthetics, it builds the theory of an attentive reading of photography and addresses the larger frameworks of photography as event in anti-racist considerations. In their political aesthetic and performative dimensions, these photographs negotiate the current matter of Black lives in the United States and articulate ontological dimensions of Blackness as political struggle and affirmative position. They become mobile and material discursive places that lift the protested debates into wider fields of consideration and visibility, complicating notions of society, politics, and interaction. Times Magazine, 1906 *Protest!* Liz McQuiston, 2019-10-29 An authoritative, richly illustrated history of six centuries of global protest art. Throughout history, artists and citizens have turned to protest art as a means of demonstrating social and political discontent. From the earliest broadsheets in the 1500s to engravings, photolithographs, prints, posters, murals, graffiti, and political cartoons, these endlessly inventive graphic forms have symbolized and spurred on power struggles, rebellions, spirited causes, and calls to arms. Spanning continents and centuries, *Protest* presents a major new chronological look at protest graphics. Beginning in the Reformation when printed visual matter was first produced in multiples, Liz McQuiston follows the iconic images that have accompanied movements and events around the world. She examines fine art and propaganda, including William Hogarth's Gin Lane, Thomas Nast's political caricatures, French and British comics, postcards from the women's suffrage movement, clothing of the 1960s counterculture, the anti-apartheid illustrated book *How to Commit Suicide* in South Africa, the Silence/Death emblem from the AIDS crisis, murals created during the Arab Spring, electronic graphics from Hong Kong's Umbrella Revolution, and the front cover of the magazine *Charlie Hebdo*. Providing a visual exploration both joyful and brutal, McQuiston discusses how graphics have been used to protest wars, call for the end to racial discrimination, demand freedom from tyranny, and satirize authority figures and regimes. From the French, Mexican, and Sandinista revolutions to the American civil rights movement, nuclear disarmament, and the Women's March of 2017, *Protest* documents the integral role of the visual arts in passionate efforts for change.

Alexander, 2017-06-05 In this book, Jeffrey Alexander develops the view that cultural sociology and cultural pragmatics are vital for understanding the structural turbulence and political possibilities of contemporary social life.
