A new paradigm of reality? Gonzalo Rodríguez-Fraile,2015-11-04 The vision that culture has historically offered about reality has failed to help humans to live fully or to achieve their potential A knowledge revolution has been taking place in recent years that once it is understood can completely transform human beings offering new solutions to personal and collective problems because their root causes have been identified at last What we now know means that we can understand spiritual truths and their multiple dimensions without abandoning rationality This new vision is strong enough to put an end to human suffering and boost inner peace which is for what every being human yearns New science sees an intelligent design in the whole Universe Quantum physics has revolutionized our knowledge of reality All scientists are now aware of the quantum enigmas but not everyone agrees on how to interpret them This book offers an interpretation that might explain them and one that is based on the idea of science within consciousness As you read the book it will become evident that this interpretation most closely resembles the vision of reality that both the perennial wisdom of Humanity and the teachings of the great spiritual masters have offered us throughout history The first part of the book outlines briefly what some of the leading thinkers on science and philosophy have to say about reality and how this new vision of the world is converging with

what the perennial wisdom of Humanity has been saying throughout our history The second part seeks to explain what can happen to us when we are exposed to this new knowledge and how all of us can change inside ourselves in the light of this information This book aims to unite not divide helping Humanity to raise its level of consciousness allowing us to live a higher quality life in accordance with our spiritual dimension **Spinoza in the light of spiritual development** Toon van Eijk,2019-08-03 The famous Dutch philosopher Baruch de Spinoza 1632 1677 is difficult to comprehend Emeritus professor Maarten van Buuren published two books on Spinoza in 2016 in which he analyses Spinoza s philosophy in a meticulous and enlightening way A number of key concepts in Spinoza s philosophy are an immanent nature inhabiting God self determination freedom power reason intuition and self appropriation In this book these key concepts are discussed based on the analysis of Van Buuren and the philosophy of Maharishi Mahesh Yogi the founder of the Transcendental Meditation TM technique The work of the philosophers Ken Wilber and Otto Duintjer also plays a role in this book Although a thorough analysis of philosophical concepts is important practical application of these concepts is paramount Theory and practice should go hand in hand A synthesis of philosophical reasoning and effective practices for spiritual development is needed

Transcendence and Hermeneutics A.M. Olson,2012-12-06 The problem of Transcendence is the problem of our time I Needless to say Transcendence was a particularly lively i sue when Karl Heim wrote these words in the mid 1930 s Within the province of philosophi cal theology and philosophy of religion however it is always the prob lem as Gordon Kaufman has recently reminded us 2Por the question concerning the nature and the reality of Transcendence has not only to do with self transcendence but with the being of Transcendence Itself that is to say with the nature and the reality of God as experienced and understood at any given time or place Now there are those today who would claim that any further discus sion of the latter half of this proposition namely Transcendence Itself or God is worthless and quite beside the point Such persons would claim that the particular logia represented by the theological sciences has collapsed by virtue of its object having disappeared Indeed when one surveys the contemporary scene in philosophy and theology there is a good deal of evidence that this is the case theology of late having be come something of a spectacle to use Pritz Buri s term One of the reasons for this we here contend is that the richness and the diversity of the meaning of Transcendence has been lost And even though we do not here intend to resolve the issue neither do we assume that such an enqui ry is either impossible or irrelevant
