Beyond Cutting Edge? Paul C. Heidebrecht, 2014-03-10 A quick scan of any newsstand is enough to confirm the widespread preoccupation with technological change As a myriad of articles and advertisements demonstrate not only are we preoccupied with technology but we are bombarded with numerous reminders that the cutting edge is in constant motion Most often the underlying assumption of Christians is that we have no choice but to find ways to cope with the latest and greatest Indeed it is often assumed that the church has no choice but to find ways to cope with its new technological context This book does not make the same assumptions Building on the work of Mennonite theologian John Howard Yoder it argues that the practices of the church make it possible for Christians to conscientiously engage technology This happens when we recognize that marks of the church such as patience vulnerability and servanthood can put technological ideals such as speed control and efficiency in their proper place In the course of grappling with three examples of morally formative technologies automobiles genetically modified food and the Internet this book goes beyond

Yoder's thought by emphasizing that the church also plays a crucial role in our moral formation **Embodying the Way of Jesus** Ted Grimsrud, 2007-01-15 The Anabaptist tradition originating as part of the sixteenth century Protestant Reformation has from its beginning presented an alternative approach to Christian faith Jesus centered Anabaptist convictions such as pacifism simple living and community remain of vital concern for twenty first century Christians *Embodying the Way of Jesus* Anabaptist Convictions for the Twenty First Century traces the origins and historical expressions of Anabaptist faith and then suggests ways Anabaptist convictions speak to our contemporary world Ted Grimsrud proposes a fourfold approach to interpreting Anabaptist theology considering themes from the Bible from the tradition's history from present experience and from envisioning a hopeful future What emerges is an engaging portrait of a living tradition that speaks with urgency and relevance to a world badly in need of a message of peace *Practicing to Aim at Truth* Ryan Andrew Newson, Brad J. Kallenberg, 2015-10-16 Beginning with her award winning book *Theology in the Age of Scientific Reasoning* 1990 Nancey Murphy has used philosophy of science as a way into and catalyst for fresh thinking in cosmology divine action epistemology cognitive neuroscience theological anthropology philosophy of mind and Christian virtue ethics The essays in this book written by her students and colleagues creatively honor Murphy by extending a number of her core insights within their respective disciplines An introduction provides both an account of Murphy's unique location an Anabaptist teaching at an evangelical graduate institution and a summary of her contributions to theology as a philosopher of science whose corpus more than any other epitomizes the paradigm shift in philosophy sometimes called Anglo American postmodernity Subsequently fourteen essays provide unique engagements with Murphy on subjects including divine action the interaction between science and theology epistemology the nature of humanity and political theology In its entirety *Practicing to Aim at Truth* provides the first in depth interaction with and extension of Nancey Murphy's unique school of thought providing a resource both for those wishing to extend her research program as well as those wishing to understand it charitably in order to critique it **Signs and Wonders** Paul Alexander, 2009-03-30 Combining personal stories and sound scholarship Paul Alexander a young scholar with a Pentecostal background examines the phenomenal worldwide success of Pentecostalism While most other works on the subject are either for academics or believers this book speaks to a broader audience Interweaving stories of his own and his family's experiences with an account of Pentecostalism's history and tenets Alexander provides a unique and accessible perspective on the movement *Christ and the Other* Reverend Dr Graham Adams, 2017-03-02 How should we relate to others those within a particular tradition those of different traditions and those who are oppressed In the light of these anxieties and building on the work of Andrew Shanks this book offers a vision of Christ as the Shaken One rooted in community with others Shaped through dialogue with the theologies of John Hick and Lesslie Newbigin Adams urges Christian communities to attend more deeply to the demands of ecumenical dialogical and political theologies to embody an ever greater solidarity of others a quality of community better demonstrating Christlike

other regard **The Politics of the Crucified** John C. Peet,2021-07-30 Jesus died not peacefully in bed but on the cross the instrument of execution used by the Romans to keep potential disturbers of the established political order in their place Until the pioneering work of Jurgen Moltmann the cross has been the elephant in the room in Christian political theology This book explores the difference Jesus s crucifixion makes or should make to Christian political theology by examining the crucifixion in the theologies of the Mennonite John Howard Yoder and the liberation theologians Leonardo Boff and Jon Sobrino In the light of the cross and of the kenotic God revealed by the cross questions of political power are explored and a kenotic political ethic outlined In conclusion suggestions are made as to how the contemporary church can live out a cruciform or cross shaped political spirituality and ecclesiology **Radical Friendship** Ryan Andrew Newson,2017-04-01 In a society that is increasingly marked by apathy division and moral incompetence how might Christians set about working with others in such a way as to begin to address those challenges that seem to overwhelm our capacity to respond In Radical Friendship Ryan Newson argues that the often neglected practice of communal discernment provides a path to faithful political engagement that is worthy of reconsideration especially given its ability to create authentic friendships both within and beyond the church Such friendships Newson maintains are capable of fostering a type of competence in people who engage the practice that can counteract those social political forces that are antithetical to competence s formation Uniquely Newson explores the contours of communal discernment as a practice that is especially relevant to Christians seeking radical democratic alternatives to political liberalism Communal discernment is shown to be capable of generating conscientious participation in grassroots politics additionally this practice enables Christians to enjoy reciprocal discerning relationships with people of differing convictional communities Indeed communal discernment turns out to be capable of preparing Christians to recognize and celebrate analogues to the practice in the world at large **Health, Healing and the Church's Mission** Willard M. Swartley,2012-08-02 Does the Christian community have the resources to develop a coherent response to today s health care challenges In a comprehensive survey covering the full scope of the Bible and three millennia of Christian belief and practice Willard Swartley fleshes out the central place of health care in the church s mission **Acts: An Exegetical Commentary : Volume 1** Craig S. Keener,2012-09-01 Highly respected New Testament scholar Craig Keener is known for his meticulous and comprehensive research This commentary on Acts his magnum opus may be the largest and most thoroughly documented Acts commentary available Useful not only for the study of Acts but also early Christianity this work sets Acts in its first century context In this volume the first of four Keener introduces the book of Acts particularly historical questions related to it and provides detailed exegesis of its opening chapters He utilizes an unparalleled range of ancient sources and offers a wealth of fresh insights This magisterial commentary will be a valuable resource for New Testament professors and students pastors Acts scholars and libraries **The Soul of Discernment** Elizabeth Liebert,2015-08-24 The Soul of Discernment provides concrete steps for groups of people who work together and

need to make important decisions church sessions nonprofit hiring committees etc Liebert calls this process the Social Discernment Cycle a process for seeking God's call in a particular situation It is called social because it deals primarily with human communities in their social structural rather than interpersonal aspects Liebert explains It is a cycle because one completed round of discernment prepares for the next The Social Discernment Cycle is particularly apt for any discernment that involves a structure system or institution This book helps groups work through this cycle to answer the question How is God leading us individually or together to act in this particular moment in our organization

Evil, Spirits, and Possession David L Bradnick, 2017-08-28 In *Evil Spirits and Possession An Emergentist Theology of the Demonic* David Bradnick develops a multidisciplinary view of the demonic using biblical theological social scientific and philosophical scientific perspectives Building upon the work of Pentecostal theologian Amos Yong this book argues for a theology informed by emergence theory whereby the demonic arises from evolutionary processes and exerts downward causal influence upon its constituent substrates Consequently evil does not result from conscious diabolic beings rather it manifests as non personal emergent forces that influence humans to initiate and execute nefarious activities Emergentism provides an alternative to contemporary views which tend to minimize or reject the reality of the demonic and it retains the demonic as a viable theological category in the twenty first century

Cleansing the Cosmos E. Janet Warren, 2012-11-08 Understanding evil spiritual forces is essential for Christian theology yet discussion is almost always phrased in terms of spiritual warfare Warfare language is problematic being dualistic assigning a high degree of ontology to evil and poorly applicable to ministry This unique study proposes a biblically based model as the first alternative to a spiritual warfare framework for dealing with the demonic thus providing insights for preaching counseling and missiology Warren develops this model using metaphor theory and examining four biblical themes Creation Cult Christ and Church Metaphors of cleansing ordering and boundary setting are developed in contrast to battle imagery and relevant theological issues are engaged Boyd's warfare imagery Barth's ideas of evil as nothingness and Eliade's notion of the sacred and the profane The role of the Holy Spirit is emphasized and the ontology of evil minimized This model incorporates concentric circles evil being considered peripheral to divine reality and provides a refreshing alternative to current spiritual warfare models

Spirit and Salvation Veli-Matti Karkkainen, 2016 This fourth volume in Veli Matti Karkkainen's ambitious five volume systematic theology develops a constructive Christian pneumatology and soteriology in dialogue with the Christian tradition with contemporary theology in all its global and contextual diversity and with other major living faiths Judaism Islam Buddhism and Hinduism Karkkainen constructs a wide and deep theology of the Holy Spirit examining creation and the sciences other cosmic powers and beings the concepts of spirits in other religions and the Spirit's place in society and politics He also goes beyond traditional ways of understanding salvation election forgiveness justification sanctification and glorification and includes discussions of Spirit baptism healing and restoration reconciliation liberation and peace building carefully comparing Christian perspectives with

the salvific views of other religions *Compassionate Eschatology* Ted Grimsrud, Michael Hardin, 2011-06-01 Do eschatology and peace go together Is eschatology mostly about retribution and fear or compassion and hope *Compassionate Eschatology* brings together a group of international scholars representing a wide range of Christian traditions to address these questions Together they make the case that Christianity's teaching about the end times should and can center on Jesus's message of peace and reconciliation Offering a peace oriented reading of the Book of Revelation and other biblical materials relevant to Christian eschatology this book breaks new ground in its consistent message that compassion not retribution stands at the heart of the doctrine of the last things Besides its creative treatment of biblical materials *Compassionate Eschatology* also makes a distinctive contribution in how several essays engage the thought of Rene Girard and his mimetic theory Girard's project is shown to reinforce the biblical message of eschatological peace **The Missiological Spirit** Amos

Yong, 2014-11-10 The field of the theology of mission has developed variously across Christian traditions in the last century Pentecostal scholars and missiologists also have made their share of contributions to this area This book brings the insights of pentecostal theologian Amos Yong to the discussion It delineates the major features of what will be argued as central to a viable vision and praxis for Christian mission in a postmodern post Christendom post Enlightenment post Western and postcolonial world What emerges will be a distinctively pentecostally and evangelically informed missiological theology one rooted in the Christian salvation history narrative of Incarnation and Pentecost that is yet open to the world in its many and various cultural ethnic religious and disciplinary discourses and realities The argument unfolds through dialogical engagements with the work of others concrete case studies and systematic theological reflection Yong's pneumatological and missiological imagination proffers a model for Christian theology of mission suitable for the twenty first century global and pluralistic context even as it exemplifies how a missiological understanding of theology itself unfolds amidst engagements with contemporary ecclesial practices and academic theological impulses embed container position relative padding bottom 56 25% height 0 overflow hidden max width 100% embed container iframe embed container object embed container embed position absolute top 0 left 0 width 100% height 100% *Miracles : 2 Volumes* Craig S. Keener, 2011-11-01 Christianity

Today 2013 Book Award Winner Winner of The Foundation for Pentecostal Scholarship's 2012 Award of Excellence 2011 Book of the Year Christianbook.com's Academic Blog Most modern prejudice against biblical miracle reports depends on David Hume's argument that uniform human experience precluded miracles Yet current research shows that human experience is far from uniform In fact hundreds of millions of people today claim to have experienced miracles New Testament scholar Craig Keener argues that it is time to rethink Hume's argument in light of the contemporary evidence available to us This wide ranging and meticulously researched two volume study presents the most thorough current defense of the credibility of the miracle reports in the Gospels and Acts Drawing on claims from a range of global cultures and taking a multidisciplinary approach to the topic Keener suggests that many miracle accounts throughout history and from

contemporary times are best explained as genuine divine acts lending credence to the biblical miracle reports
