The Oxford Handbook of Transnational Feminist Movements Rawwida Baksh-Soodeen, Wendy Harcourt, 2015 *The Oxford Handbook of Transnational Feminist Movements* explores the historical political economic and social contexts in which transnational feminist movements have emerged and spread and the contributions they have made to global knowledge power and social change over the past half century The publication of the handbook in 2015 marks the fortieth anniversary of the United Nations International Women's Year the thirtieth anniversary of the Third World Conference on Women held in Nairobi the twentieth anniversary of the Beijing Declaration and Platform for Action and the fifteenth anniversaries of the Millennium Development Goals and of UN Security Council Resolution 1325 on women peace and security The editors and contributors critically interrogate transnational feminist movements from a broad spectrum of locations in the global South and North feminist organizations and networks at all levels local national regional global and glocal wider civil society organizations and networks governmental and multilateral agencies and academic and research institutions among others The handbook reflects candidly on what we have learned about transnational feminist movements What are the different spaces from which transnational feminisms have operated and in what ways How have they contributed to our understanding of the myriad formal and informal ways in which gendered power relations define and inform everyday life To what extent have they destabilized or transformed the global hegemonic systems that constitute patriarchy From a position of fifty years of knowledge production activism working with institutions and critical reflection the handbook recognizes that transnational feminist movements form a key epistemic community that can inspire and provide leadership in shaping political spaces and institutions at all levels and transforming international political economy development and peace processes The handbook is organized into ten sections each

The Promise and Perils of Transnationalization Benjamin Stachursky, 2013 To date most constructivist international relations studies have characterized the influence of transnationalism on domestic forms of activism as uniformly positive In particular transnational interactions are viewed as positive factors for the development and daily impact of gender activism Benjamin Stachursky s book questions the unvarying positive view of transnationalism on domestic forms of activism arguing for a more nuanced analysis that permits an understanding of the enabling and restricting effects of transnationalism Stachursky also challenges the dominant view of civil society as normatively homogenous by illustrating the complex relationships and conflicts that exist between NGOs and other civil society representatives He grounds his theoretical arguments with a comparative case study on women s rights activism in Egypt and Iran which uses semi structured interviews with women s rights activists in the two countries and analysis of documentation by local political and societal actors Looking at the period from the mid 1980s up to present developments such as the Arab Spring Stachursky analyzes the emergence and development of NGO activism in Egypt and Iran the social political and legal context of NGO activism and key domestic debates on the impact and legitimacy of the actors operating in women s rights activism By closely examining the ambivalent relationship between transnationalism and human rights

organizations Stachursky proves that transnationalization has both enabling and constraining effects on the domestic legitimacy of women's rights activists and on their ability to create meaningful social and political change *Routledge Handbook of Indian Transnationalism* Ajaya Sahoo, Bandana Purkayastha, 2019-07-11 This book introduces readers to the many dimensions of historical and contemporary Indian transnationalism and the experiences of migrants and workers to reveal the structures of transnationalism and the ways in which Indian origin groups are affected The concept of crossing borders emerges as an important theme along with the interweaving of life in geographic and web spaces The authors draw from a variety of archives and intellectual perspectives in order to map the narratives of Indian transnationalism and analyse the interplay of culture and structures within transnational contexts The topics covered range from the history of transnational networks activism identity gender politics labour policy performance literature and more This collection presents a wide array of issues and debates which will reinvigorate discussions about Indian transnationalism This handbook will be an invaluable resource for academics researchers and students interested in studying South Asia in general and the Indian diaspora in particular **Transnational Feminist Itineraries** Ashwini Tambe, Millie Thayer, 2021-07-06

Transnational Feminist Itineraries brings together scholars and activists from multiple continents to demonstrate the ongoing importance of transnational feminist theory in challenging neoliberal globalization and the rise of authoritarian nationalisms around the world The contributors illuminate transnational feminism's unique constellation of elements its specific mode of thinking across scales its historical understanding of identity categories and its expansive imagining of solidarity based on difference rather than similarity Contesting the idea that transnational feminism works in opposition to other approaches especially intersectional and decolonial feminisms this volume instead argues for their complementarity Throughout the contributors call for reaching across social ideological and geographical boundaries to better confront the growing reach of nationalism authoritarianism and religious and economic fundamentalism Contributors Mary Bernstein Isabel Maria Cortes o Casimiro Rafael de la Dehesa Carmen L Diaz Alba Inderpal Grewal Cricket Keating Amy Lind Laura L Lovett Kathryn Moeller Nancy A Naples Jennifer C Nash Amrita Pande Srila Roy Cara K Snyder Ashwini Tambe Millie Thayer Catarina Casimiro Trindade *Cross-Border Solidarities in Twenty-First Century Contexts* Janet M. Conway, Pascale Dufour, Dominique Masson, 2024-04-08 Conditions for global solidarities and social movements have changed radically since their high point in the 1990s United Nations conferences This collection considers how political solidarities are being understood and constructed in a variety of cross border struggles and for what ends under twenty first century conditions In studies grounded in different world regions at a variety of scales authors address how the Cold War divide and its aftermath have structured contemporary asymmetries in European LGBT movements and in global feminisms how colonial difference in Latin America confronts feminist and social justice movements with problems of translation across worlds how travelling concepts essential to constructing solidarities across distance and difference traverse linguistic divides and attendant power

imbalances in world cities and transnational networks how rurality as a form of colonial difference challenges established categories of intersectional feminism Feminist politics of power and difference and attention to gendered agency are at the centre of this inquiry into the possibility of twenty first century solidarities across borders Village Ties Nayma Qayum,2021-11-12 Village Ties argues that grassroots women s mobilization programs can empower poor women to challenge oppressive informal institutions the rules of the game that govern relationships between actors in the rural global South By exploring the activities of women who belong to Polli Shomaj an initiative of the development organization BRAC Village Ties challenges stereotypes of poor Muslim women as backward subservient oppressed and in need of saving

Women's Citizenship in Peru S. Rousseau,2009-11-09 This book considers neopopulism as a central issue to understand patterns of women s citizenship construction in many countries of contemporary Latin America It also explains the paradoxes entailed for women s participation and citizenship rights Contesting Feminisms Huma Ahmed-Ghosh,2015-09-08 Contesting Feminisms explores how Asian Muslim women make decisions on appropriating Islam and Islamic lifestyles through their own participation in the faith The contributors highlight the fact that secularism has provided the space for some women to reclaim their religious identity and their own feminisms Through compelling case studies and theoretical discussions this volume challenges mainstream Western and national feminisms that presume homogeneity of Muslim women s lives to provide a deeper understanding of the multiple realities of feminism in Muslim communities *Health Equity in Brazil* Kia Lilly Caldwell,2017-06-30 Brazil s leadership role in the fight against HIV has brought its public health system widespread praise But the nation still faces serious health challenges and inequities Though home to the world s second largest African descendant population Brazil failed to address many of its public health issues that disproportionately impact Afro Brazilian women and men Kia Lilly Caldwell draws on twenty years of engagement with activists issues and policy initiatives to document how the country s feminist health movement and black women s movement have fought for much needed changes in women s health Merging ethnography with a historical analysis of policies and programs Caldwell offers a close examination of institutional and structural factors that have impacted the quest for gender and racial health equity in Brazil As she shows activists have played an essential role in policy development in areas ranging from maternal mortality to female sterilization Caldwell s insightful portrait of the public health system also details how its weaknesses contribute to ongoing failures and challenges while also imperiling the advances that have been made Handbook on Gender in World Politics Jill Steans,Daniela Tepe-Belfrage,2016-07-27 The Handbook on Gender in World Politics is an up to date comprehensive multi disciplinary compendium of scholarship in gender studies The text provides an indispensable reference guide for scholars and students interrogating gender issues in international and global contexts Substantive areas covered include statecraft citizenship and the politics of belonging international law and human rights media and communications technologies political economy development global governance and transnational visions of politics and solidarities **The**
