Treasure Hunt Inside The Mind Of The New Consumer:

Treasure Hunt Michael J. Silverstein, John Butman, 2006-05-04 The essential follow up to the BusinessWeek bestseller *Trading Up* A BMW in a Costco parking lot A working class family with a 50 inch plasma TV What's going on in the mind of the new consumer Today's consumers can seem impossible to understand and even harder to please For instance the average mall shopper will spend about 100 then leave when she hits that limit She'll probably buy shoes rather than clothing because she doesn't want to think about her dress size And the store most likely to get her money isn't the one with the nicest display or the deepest discounts it's the one closest to her parking spot In his consulting with dozens of leading companies Michael J Silverstein has interviewed thousands of customers extracting fascinating patterns about what really drives their purchase decisions His first book the acclaimed bestseller *Trading Up* has taught a generation of marketers about the new luxury phenomenon and why consumers will happily pay a steep premium for goods and services that are emotionally satisfying from golf clubs to bathroom fixtures to beauty products But *Trading Up* revealed only part of the story of the new consumer The same middle class people who are happily trading up at Victoria's Secret and Panera are going on treasure hunts at Costco and Home Depot And they are often getting as much emotional satisfaction in the discount stores as in the luxury stores TREASURE HUNT shows how even the most mundane shopping for things like paper towels and pet food has become an adventure rather than a tedious chore In just about every category both the high end and the low end are growing and innovation rich Many middle class consumers gladly spend 5 a day for a Starbucks venti latte others spend forty cents a day on home brewed coffee feel good about their frugality and save up the difference to buy Apple's newest Nano TREASURE HUNT explains the success of companies as diverse as Dollar General H E Butt eBay Commerce Bank and Tchibo But beware in our bifurcated global market businesses need a clear strategy for aiming high or low while avoiding the treacherous middle where so many have recently stumbled If your offering isn't exciting enough to inspire trading up but not enough of a bargain to satisfy the treasure hunters you'll have no emotional connection with your target audience And then as many fallen companies have discovered your tried and true marketing strategies will go into a severe stall TREASURE HUNT takes us into the homes of real people making real decisions and into the CEO's offices of innovative companies finding new ways to accommodate them Written with the same flair empathy and intelligence that made *Trading Up* an instant classic this is an essential guide to the moods and habits of the constantly changing consumer *Treasure Hunt*, 2006 A guide for companies on how to better understand their customers explains how today's middle income consumers are more able and eager to obtain new luxury goods by making informed financial compromises elsewhere in a guide that cites the successful marketing practices of top corporations **Treasure Hunt**, 2010 **Consumer Behavior** Patricia Huddleston, Stella Minahan, 2011-01-20 Women and shopping why is it important It's important because as a business owner you've probably realized you're missing a market segment for your product and you're not sure who or why It's important

because as a CEO you realize women have tremendous consumer spending power and are crucial to survival in the competitive retail industry in America This book details facts that could help any retailer or product manager including women control over 20 trillion in consumer spending they are better educated they have more financial power they have greater decision making abilities and they have more mobility than any previous generation Consumer Behavior Women and Shopping provides a fascinating insight into women s shopping habits and motivations their many choices about when and where to shop Retailers and business managers need to understand a woman s needs and wants in order to attract and maintain their business

Own the Future Michael S. Deimler, Richard Lesser, David Rhodes, Janmejaya Sinha, 2013-04-16

The world faces social political and economic turmoil on an unprecedented scale along with unsettling levels of turbulence and volatility Market leadership today is less of a predictor of leadership tomorrow Therefore senior executives today must strive to own the future In *Own the Future* The Boston Consulting Group one of the world s most prestigious and innovative management consulting firms offers a roadmap Drawing on the firm s experience advising organizations on how to achieve and sustain competitive advantage this book offers 50 ideas to help readers chart their organization s path to future leadership The articles are organized along ten attributes critical to success in the current environment adaptive global connected sustainable customer first fit to win value driven trusted bold and inspiring The future may be unknowable but The Boston Consulting Group offers insights from its 50 years of practice on how readers can position their organization to win to change the game and to own the future

The Strategy Paradox Michael E. Raynor, 2007-02-20 A compelling vision Bold leadership Decisive action Unfortunately these prerequisites of success are almost always the ingredients of failure too In fact most managers seeking to maximize their chances for glory are often unwittingly setting themselves up for ruin The sad truth is that most companies have left their futures almost entirely to chance and don t even realize it The reason Managers feel they must make choices with far reaching consequences today but must base those choices on assumptions about a future they cannot predict It is this collision between commitment and uncertainty that creates THE STRATEGY PARADOX This paradox sets up a ubiquitous but little understood tradeoff Because managers feel they must base their strategies on assumptions about an unknown future the more ambitious of them hope their guesses will be right or that they can somehow adapt to the turbulence that will arise In fact only a small number of lucky daredevils prosper while many more unfortunate but no less capable managers find themselves at the helms of sinking ships Realizing this even if only intuitively most managers shy away from the bold commitments that success seems to demand choosing instead timid unremarkable strategies sacrificing any chance at greatness for a better chance at mere survival Michael E Raynor coauthor of the bestselling *The Innovator s Solution* explains how leaders can break this tradeoff and achieve results historically reserved for the fortunate few even as they reduce the risks they must accept in the pursuit of success In the cutthroat world of competitive strategy this is as close as you can come to getting something for nothing Drawing on leading edge scholarship

and extensive original research Raynor's revolutionary principle of Requisite Uncertainty yields a clutch of critical counter intuitive findings Among them The Board should not evaluate the CEO based on the company's performance but instead on the firm's strategic risk profile The CEO should not drive results but manage uncertainty Business unit leaders should not focus on execution but on making strategic choices Line managers should not worry about strategic risk but devote themselves to delivering on commitments With detailed case studies of success and failure at Sony Microsoft Vivendi Universal Johnson Johnson AT T and other major companies in industries from financial services to energy Raynor presents a concrete framework for strategic action that allows companies to seize today's opportunities while simultaneously preparing for tomorrow's promise

Trading Up Michael J. Silverstein, Neil Fiske, John Butman, 2008-04-29 Trading up isn t just for the wealthy anymore These days no one is shocked when an administrative assistant buys silk pajamas at Victoria s Secret Or a young professional buys only Kendall Jackson premium wines Or a construction worker splurges on a 3 000 set of Callaway golf clubs In dozens of categories these new luxury brands now sell at huge premiums over conventional goods and in much larger volumes than traditional old luxury goods Trading Up has become the definitive book about this growing trend *Competitive Strategies*

E. Valdani, A. Arbore, 2012-11-30 This book proposes a new framework to effectively manage both offensive and defensive marketing strategies It reinterprets the competitive challenge as a circular journey that is an endless sequence of three competitive seasons The authors call them the games of movement imitation and position The \$10 Trillion Prize Michael

J. Silverstein, 2012 This is the first detailed look at the new generation of consumers in emerging markets how they think shop buy and dream and what companies must do to win them over from the heads of Boston Consulting Group s consumer and globalization practices in the US China and India It is the dawn of the emerging consumer Are you ready By 2020 consumers in China and India will generate more than 10 trillion of total annual revenue for companies selling to them Already the world s biggest buyers of cars mobile phones shoes home appliances and more consumers in these countries are waiting for your firm s products and services But are you ready for the demand Harvard Business Review , 2006

Debating Authenticity Thomas Fillitz,A. Jamie Saris,2012-12-01 The longing for authenticity on an individual or collective level connects the search for external expressions to internal orientations What is largely referred to as production of authenticity is a reformulation of cultural values and norms within the ongoing process of modernity impacted by globalization and contemporary transnational cultural flows This collection interrogates the notion of authenticity from an anthropological point of view and considers authenticity in terms of how meaning is produced in and through discourses about authenticity Incorporating case studies from four continents the topics reach from art and colonialism to exoticism primitivism film ritual and wilderness Some contributors emphasise the dichotomy between the academic use of the term and the one deployed in public spaces and political projects All however consider authenticity as something that can only be understood ethnographically and not as a simple characteristic or category used to distinguish some behaviors experiences or material things from other less authentic versions Rebound Stephen J. Rose,2010-04-13 Rebound takes the currently unthinkable view that the economy will bounce back faster and stronger from the downturn than most economists expect Noted Labor economist Stephen J Rose amasses data on the economic performance of America over the last 30 years to debunk myths about declining middle class incomes burger flipping jobs and global competition He also describes the evolution of the financial crisis and mortgage lending implosion under the rubric of brilliant idiocy to show how the investors financial firms and regulators all made devastating mistakes in pursuit of quick gains The book argues forcefully that simple financial regulation and forthcoming investments in education health care and energy will pay quick and healthy dividends Using economic analysis rather than partisan argument Rebound cuts through the clutter of political debate to show how the economy will return to high growth rates
