Treasure Island (Unabridged & Illustrated) Robert Louis Stevenson,2019-06-13 It was in 1880 and 1881 that Stevenson wrote *Treasure Island* which was begun at Braemar Scotland where his father aided him with suggestions from his own seafaring

experiences It was finished in the course of his second visit to Davos in the winter of 1881 82 In 1878 he had published his first book *The Island Voyage* which was followed by *Travels with a Donkey* He had also written the tales known as *The New Arabian Nights* the essays collected under the title of *Virginibus Puerisque* and other stories and essays but *Treasure Island* which appeared when the author was thirty one was his first long romance and it brought to him his first taste of popular success when the story was published in book form It was in October 1881 that this story began to appear as a serial in an English magazine called *Young Folks* The title then was *The Sea Cook or Treasure Island* but when published in book form in May 1883 the name was simply *Treasure Island* a name which has taken its place among the titles of far older classics I remember well that as a boy in England I was obliged to satisfy my craving for sea stories with books like *Captain Cook's Voyages* and *The Mutiny of the Bounty* The latter dreadful tale must have been read by Stevenson and perhaps afforded some suggestions It has seemed to me that before *Treasure Island* there was no really great sea tale for younger readers The immortal *Swiss Family Robinson* and *Robinson Crusoe* belonged to a different category and *Dana's Two Years before the Mast* was little known to English youth It seems to me fair to say that *Treasure Island* is the only great modern classic written especially for younger readers I find that girls enjoy *Treasure Island* just as well as boys The book stands alone in its wonderfully vivid and dramatic story telling which is characterized throughout by an entirely sane and wholesome tone and purpose When I imagine myself again a boyish reader comparing this story with the old favorites like *Robinson Crusoe* *Gulliver's Travels* *The Pilgrim's Progress* *The Swiss Family Robinson* and *Tom Brown at Rugby* the first three not written originally for children I find myself impelled to rank *Treasure Island* as an equal and in some points as a superior This may seem heresy but it is the result of a peculiarly close and sympathetic study of these and other famous books for boys and girls Although this was Stevenson's first long romantic story he showed the born story teller's instinct for a beginning which seizes upon the reader at once We are absorbed in the first few lines and the interest deepens as we go on How it moves and holds us the advent of that precious trio Billy Bones Old Pew and Black Dog and their performances at the Admiral Benbow It is so apt an introduction to the strange tale of after happenings And from a boy's viewpoint the end is perfect While children as a rule do not understand the value of money yet they keenly appreciate the realization of a climax where the boy hero can fairly bury himself in golden coins It is natural that the last chapter should be read with a tinge of envy and a yearning to lay hands upon Jim Hawkins's bags of gold And the romantic glamour of the situation appeals to older readers also who will do well to turn oftener from the average novel of the day to this most delightful example of ideal realism It is hard to understand why Stevenson preferred to have the story published first without illustrations With his keen artistic sense he must have felt that fitting illustration would be a gain The text is full of effective subjects and the period and costumes romantic in the extreme We know that the author was greatly disappointed at the mild approval given to the story in its serial publication
