

## GTS1000. The only sport tourer that's moving forwards!

At Yamaha we believe in progress. And as when we set about designing a new sport tourer we started with a clean sheet of paper.

Our aim was to build a new kind of motorcycle that could take you around the world as easily as it could take you to work. The Yamaha GTS1000.

To achieve this we developed the revolutionary Omega Mega Chain Concept which offers remarkable handling performance even when fully loaded. And with its advanced single-valve swinging arm front end eliminating dive during braking by separating steering

and suspension functions, the GTS chassis represents a major advance in sport tourer design.

But we didn't stop there. For improved overall performance the high-torque 4-cylinder 20-valve engine uses 160 horses. Fuel injection, and to reduce emissions a 3-way catalytic converter is fitted.

Even the braking system is unique, featuring a single front disc, with 4 pistons delivering reliable stopping power, while electronic ABS is fitted to the GTS1000A. Yamaha GTS1000. Moving forward to the future!

## A new standard in first class travel.

No other motorcycle looks or performs like the GTS1000. And that's because this is undoubtedly the most sophisticated sport tourer ever produced, a truly remarkable machine that takes motorcycling into a whole new era.

Equipped with the most advanced oil thrower design ever used on a production motorcycle, and powered by an

environmentally-responsible fuel injected engine, the GTS is in a class of its own!

Ergonomically-designed handlebar/seat/footrest relationship offers a relaxing neutral riding position, and the stylish aerodynamically-efficient fairing incorporates an advanced air management system for reduced fatigue on long distance tours.

Which means that with the GTS you'll travel first class every time!
